

daftaro

About Daftaro

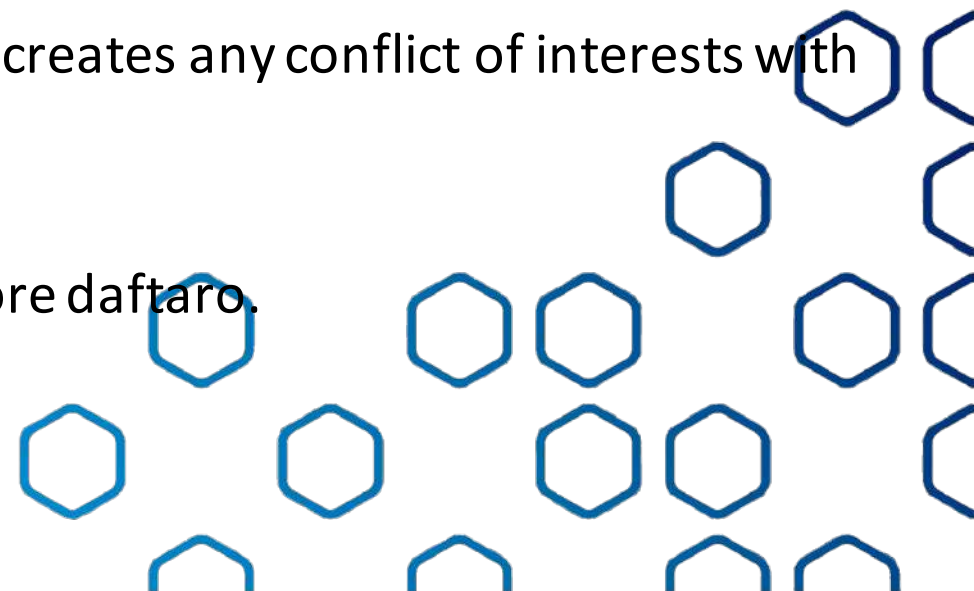

Daftaro is an open platform for healthcare booking assistance. Founded by a surgeon and a patient, daftaro offers practical solutions so users do not stress out about uncertainties when it comes to healthcare.

Our users will get a notification when healthcare providers adjust their office hours. They will be able to estimate the arrival time and also minimize waiting time in healthcare facilities.

We can guarantee that daftaro neither interrupts or creates any conflict of interests with Hospital's existing reservation system.

We would like to thank you for making time to explore daftaro.

Introduction

Daftar is a user-oriented mobile application in medical services & wellness treatment assistance. Our users book their healthcare appointments from their fingertips, minimizing all the hassle and waiting in line. We also provide directory of healthcare practitioners's schedule.

daftaro

About Us

- Centralize all your healthcare reservations, as well as bookings made on behalf of your loved ones, with daftaro.
- Being a patient-centered tool, daftaro empowers you to take ownership and responsibilities over your own health. Daftaro is powered by commoners who aspire to increase your quality of life.

daftaro

Remote Reservation

- Get used to the convenience of booking, paying, and managing all your and your loved ones' healthcare reservations in daftaro.
- No more forgotten appointments, now you are always reminded of your and your loved ones' healthcare sessions.

daftaro

Reduce Uncertainty

- Be informed. Eliminate guessing games. Prepay your healthcare consultation for peace of mind. No hidden costs. No more surprise expenses.
- Get notified when your healthcare providers adjust their office hours. Eliminate guessing games. Be able to estimate your arrival time. Minimize waiting time in healthcare facilities. Know your queueing number in advance.
