# HBP-9020 is equipped with elbow detection sensor and moveable cuff to provide accurate measurements.

The monitor can detect low and soft korotkoff's sound and be used in a noisy environment.

### Angle Control

Tall people can also measure easily with the moving cuff.

### Elbow Sensor

Guide user's arm to the correct position for measurement

### Compatible with both left and right arm measurements

A start/stop switch for left arm measurements is located on the right side of the device.

### Enhanced user support functions – Indication for correct arm position for measurement

Fitted with an elbow detection sensor to indicate correct arm position. In addition, the cuff can be adjusted according to the body height of the patient so that measurements can always be taken at the correct position comfortably.

Blue light indicates correct arm position

Do not move your arm

### The movable arm cuff allows tall people to assume the correct measurement position

#### Fixed Cuff

Fixed cuff can hinder tall people from measuring in the correct posture. This can influence the measurement result.

#### Advantage of moveable cuff

The moving cuff adjusts the best angle for tall people.

### User-friendly Features

- Compatible with a wide range of arm thickness (from 17 cm to 42 cm circumference)
- LED display and audio voice guide users through the measurement procedure, making measurement easy for new users.
- Audio announcement of results after measurement.
- Antibacterial finishing for both the device and the cuff cover.
- Customized printed results with image/logo upload function.

Systolic blood pressure

**128** mmHg

Average blood pressure

**92** mmHg

Diastolic blood pressure

**76** mmHg

Pulse rate

**68** mmHg

Measurement taken with correct cuff position (After measurement range)

Change to pulse

Blood pressure is constantly fluctuating. Please measure at regular intervals. Please consult a doctor for advice and refrain from self diagnosis.

XX Hospital

### Specifications

<b>Model</b>	HBP-9020
<b>Display method</b>	LED digital display
<b>Measurement method</b>	Oscillometric method
<b>Measurement range</b>	Pressure 0 ~ 299 mmHg
<b>Pulse</b>	40 ~ 180/min.
<b>Accuracy</b>	Pressure $\pm 3$ mmHg, Pulse $\pm 5\%$ of display reading
<b>Inflation</b>	Automatic inflation
<b>Deflation</b>	Automatic deflation
<b>Air release</b>	Automatic rapid air release
<b>Pressure detection</b>	Electrostatic capacity pressure sensor

Note: Specifications may subject to changes without prior notice.

<b>Measurable arm circumference</b>	17 ~ 42 cm
<b>Power</b>	AC 100 ~ 240 V 50/60 Hz
<b>Power consumption</b>	70 VA
<b>Weight</b>	Approximately 5.5 kg
<b>Outside dimensions</b>	Approximately 370 (l) x 460 (w) x 270 (h) mm
<b>Accessories included</b>	Armrest, cuff cover, power cord, printer paper (1 roll), instruction panel, instruction manual, elbow rest guide plate
<b>Options (sold separately)</b>	Stand and chair, printer paper (10 rolls per box), cuff cover
